

Latvia - LV

Aglona - get the first digit and search the equivalence					
1 = 55,26	2 = 55,27	3 = 56,26	4 = 56,27		
Aizkraukles Rajons - put the first part in box LA1 and second part in box LO1					
1 = 56,25					
Aizpute - put the first part in box LA1 and second part in box LO1					
1 = 56,21					
Akniste - get the first digit and search the equivalence					
1 = 56,25	2 = 56,26				
Aloja - get the first digit and search the equivalence					
1 = 57,24	2 = 57,25				
Alsunga - get the first digit and search the equivalence					
1 = 56,21	2 = 57,21				
Aluksnes Rajons - get the first digit and search the equivalence					
1 = 57,26	2 = 57,27				
Amatas Novads - get the first digit and search the equivalence					
1 = 56,25	2 = 57,25				
Apes Novads - put the first part in box LA1 and second part in box LO1					
1 = 57,26					
Auces Novads - get the first digit and search the equivalence					
1 = 56,22	2 = 56,23				
Babite - get the first digit and search the equivalence					
1 = 56,23	2 = 56,24				
Baldone - put the first part in box LA1 and second part in box LO1					
1 = 56,24					
Baltinava - get the first digit and search the equivalence					
1 = 56,27	2 = 57,27				
Balvu Rajons - get the first digit and search the equivalence					
1 = 56,26	2 = 56,27	3 = 57,26	4 = 57,27		
Bauskas Rajons - put the first part in box LA1 and second part in box LO1					
1 = 56,24					
Beverina - put the first part in box LA1 and second part in box LO1					
1 = 57,25					
Broceni - put the first part in box LA1 and second part in box LO1					
1 = 56,22					
Burtnieki - put the first part in box LA1 and second part in box LO1					
1 = 57,25					
Carnikava - put the first part in box LA1 and second part in box LO1					
1 = 57,24					
Cesvaine - get the first digit and search the equivalence					
1 = 56,26	2 = 57,26				
Cibla - get the first digit and search the equivalence					
1 = 56,27	2 = 56,28				
Cesu Rajons - put the first part in box LA1 and second part in box LO1					
1 = 57,25					
Dagda - get the first digit and search the equivalence					
1 = 55,27	2 = 55,28	3 = 56,27	4 = 56,28		
Daugavpils - get the first digit and search the equivalence					
1 = 55,26	2 = 56,26				
Daugavpils - put the first part in box LA1 and second part in box LO1					
1 = 55,26					
Dobeles Rajons - get the first digit and search the equivalence					
1 = 56,22	2 = 56,23				
Dundaga - put the first part in box LA1 and second part in box LO1					
1 = 57,22					
Durbe - put the first part in box LA1 and second part in box LO1					
1 = 56,21					
Engure - get the first digit and search the equivalence					
1 = 56,23	2 = 57,23				
Garkalne - get the first digit and search the equivalence					
1 = 56,24	2 = 57,24				
Grobina - put the first part in box LA1 and second part in box LO1					
1 = 56,21					
Gulbenes Rajons - get the first digit and search the equivalence					
1 = 56,25	2 = 56,26	3 = 56,27	4 = 57,25	5 = 57,26	6 = 57,27
Ikšķile - put the first part in box LA1 and second part in box LO1					
1 = 56,24					
Ilukste - get the first digit and search the equivalence					
1 = 55,25	2 = 55,26	3 = 56,25	4 = 56,26		
Incukalns - put the first part in box LA1 and second part in box LO1					
1 = 57,24					
Jaunjelgava - get the first digit and search the equivalence					
1 = 56,24	2 = 56,25				
Jaunpiebalga - get the first digit and search the equivalence					

1 = 57,25	2 = 57,26		
Jaunpils - get the first digit and search the equivalence			
1 = 56,22	2 = 56,23		
Jelgava - put the first part in box LA1 and second part in box L01			
1 = 56,23			
Jelgavas Rajons - get the first digit and search the equivalence			
1 = 56,23	2 = 56,24		
Jekabpils - put the first part in box LA1 and second part in box L01			
1 = 56,25			
Jekabpils Rajons - get the first digit and search the equivalence			
1 = 56,25	2 = 56,26		
Jurmala - get the first digit and search the equivalence			
1 = 56,23	2 = 57,23		
Kandava - get the first digit and search the equivalence			
1 = 56,22	2 = 57,22		
Karsava - put the first part in box LA1 and second part in box L01			
1 = 56,27			
Koceni - get the first digit and search the equivalence			
1 = 57,24	2 = 57,25		
Koknese - put the first part in box LA1 and second part in box L01			
1 = 56,25			
Krimulda - put the first part in box LA1 and second part in box L01			
1 = 57,24			
Krustpils - get the first digit and search the equivalence			
1 = 56,25	2 = 56,26		
Kraslavas Rajons - get the first digit and search the equivalence			
1 = 55,26	2 = 55,27	3 = 56,26	4 = 56,27
Kuldigas Rajons - get the first digit and search the equivalence			
1 = 56,21	2 = 56,22	3 = 57,21	4 = 57,22
Lecava - put the first part in box LA1 and second part in box L01			
1 = 56,24			
Lielvarde - get the first digit and search the equivalence			
1 = 56,24	2 = 56,25		
Liepaja - get the first digit and search the equivalence			
1 = 56,20	2 = 56,21		
Limbazu Rajons - get the first digit and search the equivalence			
1 = 57,24	2 = 57,25		
Lubana - put the first part in box LA1 and second part in box L01			
1 = 56,26			
Ludzas Rajons - get the first digit and search the equivalence			
1 = 56,27	2 = 56,28		
Ligatne - get the first digit and search the equivalence			
1 = 57,24	2 = 57,25		
Livani - put the first part in box LA1 and second part in box L01			
1 = 56,26			
Madonas Rajons - get the first digit and search the equivalence			
1 = 56,25	2 = 56,26	3 = 57,25	4 = 57,26
Mazsalaca - get the first digit and search the equivalence			
1 = 57,24	2 = 57,25	3 = 58,24	4 = 58,25
Malpils - get the first digit and search the equivalence			
1 = 56,24	2 = 56,25	3 = 57,24	4 = 57,25
Marupe - get the first digit and search the equivalence			
1 = 56,23	2 = 56,24		
Mesraga - get the first digit and search the equivalence			
1 = 57,22	2 = 57,23		
Naukseni - put the first part in box LA1 and second part in box L01			
1 = 57,25			
Nereta - get the first digit and search the equivalence			
1 = 56,24	2 = 56,25		
Nica - get the first digit and search the equivalence			
1 = 56,20	2 = 56,21		
Ogre - get the first digit and search the equivalence			
1 = 56,24	2 = 56,25		
Olaine - get the first digit and search the equivalence			
1 = 56,23	2 = 56,24		
Ozolnieku - get the first digit and search the equivalence			
1 = 56,23	2 = 56,24		
Preiļu Rajons - put the first part in box LA1 and second part in box L01			
1 = 56,26			
Priekule - put the first part in box LA1 and second part in box L01			
1 = 56,21			
Priekuli - put the first part in box LA1 and second part in box L01			
1 = 57,25			
Pargaujas - get the first digit and search the equivalence			
1 = 57,24	2 = 57,25		
Pavilostas - put the first part in box LA1 and second part in box L01			
1 = 56,21			
Plavīnu - put the first part in box LA1 and second part in box L01			
1 = 56,25			

Purnas - get the first digit and search the equivalence			
1 = 57,25	2 = 57,26		
Riebinu - get the first digit and search the equivalence			
1 = 56,26	2 = 56,27		
Rojas - get the first digit and search the equivalence			
1 = 57,22	2 = 57,23		
Ropazu - get the first digit and search the equivalence			
1 = 56,24	2 = 57,24		
Rucavas - get the first digit and search the equivalence			
1 = 56,20	2 = 56,21		
Rugaju - get the first digit and search the equivalence			
1 = 56,26	2 = 56,27	3 = 57,26	4 = 57,27
Rundales - get the first digit and search the equivalence			
1 = 56,23	2 = 56,24		
Rezekne - put the first part in box LA1 and second part in box LO1			
1 = 56,27			
Rezeknes Rajons - get the first digit and search the equivalence			
1 = 56,26	2 = 56,27		
Riga - get the first digit and search the equivalence			
1 = 56,23	2 = 56,24	3 = 57,23	4 = 57,24
Rujienas - get the first digit and search the equivalence			
1 = 57,25	2 = 58,25		
Salacgrivas - put the first part in box LA1 and second part in box LO1			
1 = 57,24			
Salas - put the first part in box LA1 and second part in box LO1			
1 = 56,25			
Salaspils - put the first part in box LA1 and second part in box LO1			
1 = 56,24			
Saldus Rajons - get the first digit and search the equivalence			
1 = 56,21	2 = 56,22		
Saulkrastu - put the first part in box LA1 and second part in box LO1			
1 = 57,24			
Sigulda - get the first digit and search the equivalence			
1 = 56,24	2 = 56,25	3 = 57,24	4 = 57,25
Skrunda - get the first digit and search the equivalence			
1 = 56,21	2 = 56,22		
Skriveri - put the first part in box LA1 and second part in box LO1			
1 = 56,25			
Smiltene - get the first digit and search the equivalence			
1 = 57,25	2 = 57,26		
Stopini - put the first part in box LA1 and second part in box LO1			
1 = 56,24			
Strenci - put the first part in box LA1 and second part in box LO1			
1 = 57,25			
Seja - put the first part in box LA1 and second part in box LO1			
1 = 57,24			
Talsu Rajons - get the first digit and search the equivalence			
1 = 57,22	2 = 57,23		
Tukuma Rajons - get the first digit and search the equivalence			
1 = 56,22	2 = 56,23	3 = 57,22	4 = 57,23
Tervete - put the first part in box LA1 and second part in box LO1			
1 = 56,23			
Vainode - get the first digit and search the equivalence			
1 = 56,21	2 = 56,22		
Valkas Rajons - get the first digit and search the equivalence			
1 = 57,25	2 = 57,26		
Valmieras Rajons - put the first part in box LA1 and second part in box LO1			
1 = 57,25			
Varaklani - put the first part in box LA1 and second part in box LO1			
1 = 56,26			
Vecpiebalga - get the first digit and search the equivalence			
1 = 56,25	2 = 57,25		
Vecumnieki - get the first digit and search the equivalence			
1 = 56,24	2 = 56,25		
Ventspils - put the first part in box LA1 and second part in box LO1			
1 = 57,21			
Ventspils Rajons - get the first digit and search the equivalence			
1 = 56,21	2 = 56,22	3 = 57,21	4 = 57,22
Viesite - put the first part in box LA1 and second part in box LO1			
1 = 56,25			
Vilaka - put the first part in box LA1 and second part in box LO1			
1 = 57,27			
Vilanu - get the first digit and search the equivalence			
1 = 56,26	2 = 56,27		
Varkava - put the first part in box LA1 and second part in box LO1			
1 = 56,26			
Zilupes - get the first digit and search the equivalence			
1 = 56,27	2 = 56,28		
Adazi - put the first part in box LA1 and second part in box LO1			
1 = 57,24			

Erpli - get the first digit and search the equivalence	
1 = 56,25	2 = 57,25
Kegums - get the first digit and search the equivalence	
1 = 56,24	2 = 56,25
Kekava - get the first digit and search the equivalence	
1 = 56,23	2 = 56,24
