

Cape Verde - CV

Boa Vista - get the first digit and search the equivalence

1 = 15,-22 2 = 16,-22

Brava - put the first part in box LA1 and second part in box L01

1 = 14,-24

Praia - put the first part in box LA1 and second part in box L01

1 = 14,-23

Ribeira Brava - put the first part in box LA1 and second part in box L01

1 = 16,-24

Ribeira Grande - put the first part in box LA1 and second part in box L01

1 = 17,-25

Ribeira Grande de Santiago - get the first digit and search the equivalence

1 = 14,-23 2 = 15,-23

Santa Catarina - get the first digit and search the equivalence

1 = 14,-23 2 = 15,-23

Santa Catarina do Fogo - put the first part in box LA1 and second part in box L01

1 = 14,-24

Santa Cruz - put the first part in box LA1 and second part in box L01

1 = 15,-23

Sao Domingos - get the first digit and search the equivalence

1 = 14,-23 2 = 15,-23

Sao Miguel - put the first part in box LA1 and second part in box L01

1 = 15,-23

Sao Salvador do Mundo - put the first part in box LA1 and second part in box L01

1 = 15,-23

Sao Vicente - get the first digit and search the equivalence

1 = 16,-25 2 = 16,-24

Maio - put the first part in box LA1 and second part in box L01

1 = 15,-23

Paul - get the first digit and search the equivalence

1 = 17,-25 2 = 17,-24

Porto Novo - get the first digit and search the equivalence

1 = 16,-25 2 = 16,-24 3 = 17,-25 4 = 17,-24

Sao Filipe - get the first digit and search the equivalence

1 = 14,-24 2 = 15,-24

Tarrafal - put the first part in box LA1 and second part in box L01

1 = 15,-23

Tarrafal de Sao Nicolau - put the first part in box LA1 and second part in box L01

1 = 16,-24

Mosteiros - get the first digit and search the equivalence

1 = 14,-24 2 = 15,-24

Sal - put the first part in box LA1 and second part in box L01

1 = 16,-22

Sao Lourenco dos Orgaos - put the first part in box LA1 and second part in box L01

1 = 15,-23
