

# Malaysia - MY

Johor - get the first digit and search the equivalence										
1 = 1,102	2 = 1,103	3 = 1,104	4 = 2,102	5 = 2,103	6 = 2,104					
Kedah - get the first digit and search the equivalence										
1 = 5,99	2 = 5,100	3 = 5,101	4 = 6,99	5 = 6,100	6 = 6,101					
Kelantan - get the first digit and search the equivalence										
1 = 4,101	2 = 4,102	3 = 5,101	4 = 5,102	5 = 6,101	6 = 6,102					
Kuala Lumpur - put the first part in box LA1 and second part in box LO1										
1 = 3,101										
Labuan - put the first part in box LA1 and second part in box LO1										
1 = 5,115										
Melaka - get the first digit and search the equivalence										
1 = 2,101	2 = 2,102									
Negeri Sembilan - get the first digit and search the equivalence										
1 = 2,101	2 = 2,102	3 = 3,101	4 = 3,102							
Pahang - get the first 2 digits and search their equivalence										
01 = 2,101	02 = 2,102	03 = 2,103	04 = 2,104	05 = 3,101	06 = 3,102	07 = 3,103	08 = 3,104	09 = 4,101	10 = 4,102	11 = 4,103
12 = 4,104										
Penang - put the first part in box LA1 and second part in box LO1										
1 = 5,100										
Perak - get the first digit and search the equivalence										
1 = 3,100	2 = 3,101	3 = 4,100	4 = 4,101	5 = 5,100	6 = 5,101					
Perlis - put the first part in box LA1 and second part in box LO1										
1 = 6,100										
Putrajaya - put the first part in box LA1 and second part in box LO1										
1 = 2,101										
Sabah - get the first 2 digits and search their equivalence										
01 = 4,115	02 = 4,116	03 = 4,117	04 = 4,118	05 = 4,119	06 = 5,115	07 = 5,116	08 = 5,117	09 = 5,118	10 = 5,119	11 = 6,115
12 = 6,116	13 = 6,117	14 = 6,118	15 = 6,119	16 = 7,115	17 = 7,116	18 = 7,117	19 = 7,118	20 = 7,119		
Sarawak - get the first 2 digits and search their equivalence										
01 = 0,109	02 = 0,110	03 = 0,111	04 = 0,112	05 = 0,113	06 = 0,114	07 = 0,115	08 = 1,109	09 = 1,110	10 = 1,111	11 = 1,112
12 = 1,113	13 = 1,114	14 = 1,115	15 = 2,109	16 = 2,110	17 = 2,111	18 = 2,112	19 = 2,113	20 = 2,114	21 = 2,115	22 = 3,109
23 = 3,110	24 = 3,111	25 = 3,112	26 = 3,113	27 = 3,114	28 = 3,115	29 = 4,109	30 = 4,110	31 = 4,111	32 = 4,112	33 = 4,113
34 = 4,114	35 = 4,115									
Selangor - get the first digit and search the equivalence										
1 = 2,100	2 = 2,101	3 = 3,100	4 = 3,101							
Terengganu - get the first digit and search the equivalence										
1 = 3,102	2 = 3,103	3 = 4,102	4 = 4,103	5 = 5,102	6 = 5,103
