## Tunisia - TN

Gafsa - get	the first digit	and search the	e equivalence							
= 34,8	2 = 34,9									
in 'Arus -	get the first di	git and search	the equivalenc	e						
= 36,9	2 = 36,10									
anzart - ge	et the first dig	it and search t	he equivalence							
= 36,8	2 = 36,9	3 = 36,10	4 = 37,8	5 = 37,9	6 = 37,10					
lajah - get	the first digit	and search the	equivalence							
= 36,8	2 = 36,9	3 = 37,8	4 = 37,9							
(abis - get	the first digit	and search the	e equivalence							
= 33,9	2 = 33,10	3 = 34,9	4 = 34,10							
undubah -	get the first d	igit and search	n the equivalenc	ce						
= 36,8	2 = 36,9	3 = 37,8	4 = 37,9							
Al Qayrawa	n - get the firs	t digit and sea	rch the equival	ence						
= 35,9	2 = 35,10	3 = 36,9	4 = 36,10							
l Qasrayn	- get the first	digit and sear	ch the equivale	nce						
= 34,8	2 = 34,9	3 = 35,8	4 = 35,9							
(ef - get th	e first digit an	d search the e	quivalence							
= 35,8	2 = 35,9	3 = 36,8	4 = 36,9							
)ibili - get	the first digit	and search the	equivalence							
I = 32,7	2 = 32,8	3 = 32,9	4 = 33,7	5 = 33,8	6 = 33,9	7 = 34,7	8 = 34,8	9 = 34,9		
Al Mahdiya	h - get the firs	t digit and sea	rch the equival	ence						
= 35,10	2 = 35,11									
Al Munastii	r - get the first	digit and sear	rch the equivale	ence						
I = 35,10	2 = 35,11									
Madanin - g	jet the first di	git and search	the equivalence	e <sub>.</sub>						
= 32,9	2 = 32,10	3 = 32,11	4 = 33,9	5 = 33,10	6 = 33,11					
		and search the								
I = 36,10	2 = 36,11	3 = 37,10	4 = 37,11							
<u> </u>			he equivalence							
I = 34,9	2 = 34,10	3 = 34,11	4 = 35,9	5 = 35,10	6 = 35,11					
idi Bu Zay	d - get the firs	t digit and sea	rch the equival	ence						
= 34,8	2 = 34,9	3 = 34,10	4 = 35,8	5 = 35,9	6 = 35,10					
, ,	· .	<b>*</b> .	the equivalence	e						
= 35,8	2 = 35,9	3 = 36,8	4 = 36,9							
		and search th	e equivalence							
= 35,10	2 = 36,10									
			he equivalence							
= 33,7	2 = 33,8	3 = 34,7	4 = 34,8							
		and search the	equivalence							
= 36,9	2 = 36,10									
	· .	git and search	the equivalenc	е						
= 36,9	2 = 36,10									
			e equivalence							
= 36,9	2 = 36,10	3 = 37,9	4 = 37,10							
Manouba -	get the first di	git and search	the equivalenc	:e						
= 36,9	2 = 36,10									
ataouine -	get the first 2	2 digits and se	arch their equiv	alence						
1 = 30,8	02 = 30,9	03 = 30,10	04 = 30,11	05 = 31,8	06 = 31,9	07 = 31,10	08 = 31,11	09 = 32,8	10 = 32,9	11 = 32,10
12 = 32,11	13 = 33,8	14 = 33,9	15 = 33,10	16 = 33,11
