Laos - LA

Attapu - get the first digit and search the equivalence										
1 = 14,106	2 = 14,107	3 = 15,106	4 = 15,107							

Bolikhamxai - get the first 2 digits and search their equivalence										
01 = 17,102	02 = 17,103	03 = 17,104	04 = 17,105	05 = 18,102	06 = 18,103	07 = 18,104	08 = 18,105	09 = 19,102	10 = 19,103	11 = 19,104
12 = 19,105										

Champasak - get the first digit and search the equivalence										
1 = 13,105	2 = 13,106	3 = 14,105	4 = 14,106	5 = 15,105	6 = 15,106					

Houaphan - get the first digit and search the equivalence										
1 = 19,103	2 = 19,104	3 = 20,103	4 = 20,104							

Khammouan - get the first digit and search the equivalence										
1 = 16,104	2 = 16,105	3 = 16,106	4 = 17,104	5 = 17,105	6 = 17,106	7 = 18,104	8 = 18,105	9 = 18,106		

Bokeo - get the first digit and search the equivalence										
1 = 19,100	2 = 19,101	3 = 20,100	4 = 20,101							

Oudomxai - get the first digit and search the equivalence										
1 = 19,100	2 = 19,101	3 = 19,102	4 = 20,100	5 = 20,101	6 = 20,102	7 = 21,100	8 = 21,101	9 = 21,102		

Phongsali - get the first digit and search the equivalence										
1 = 20,101	2 = 20,102	3 = 21,101	4 = 21,102	5 = 22,101	6 = 22,102					

Savannahkhet - get the first digit and search the equivalence										
1 = 15,104	2 = 15,105	3 = 15,106	4 = 16,104	5 = 16,105	6 = 16,106	7 = 17,104	8 = 17,105	9 = 17,106		

Xekong - get the first digit and search the equivalence										
1 = 15,106	2 = 15,107	3 = 16,106	4 = 16,107							

Loungnamtha - get the first digit and search the equivalence										
1 = 20,100	2 = 20,101	3 = 21,100	4 = 21,101							

Louangphabang - get the first digit and search the equivalence										
1 = 19,101	2 = 19,102	3 = 19,103	4 = 20,101	5 = 20,102	6 = 20,103	7 = 21,101	8 = 21,102	9 = 21,103		

Salavan - get the first digit and search the equivalence										
1 = 15,105	2 = 15,106	3 = 15,107	4 = 16,105	5 = 16,106	6 = 16,107					

Vientiane - get the first digit and search the equivalence										
1 = 17,101	2 = 17,102	3 = 17,103	4 = 18,101	5 = 18,102	6 = 18,103	7 = 19,101	8 = 19,102	9 = 19,103		

Vientiane - get the first digit and search the equivalence										
1 = 17,102	2 = 17,103	3 = 18,102	4 = 18,103							

Xiagnabouli - get the first digit and search the equivalence										
1 = 17,100	2 = 17,101	3 = 18,100	4 = 18,101	5 = 19,100	6 = 19,101					

Xiangkhoang - get the first digit and search the equivalence										
1 = 18,102	2 = 18,103	3 = 18,104	4 = 19,102	5 = 19,103	6 = 19,104	7 = 20,102	8 = 20,103	9 = 20,104
