Macedonia - MK

Berovo - put the first part in box LA1 and second part in box LO1

1 = 41,22	

Bitola - get the first digit and search the equivalence

1 = 40,21	2 = 41,21

Bogdanci - put the first part in box LA1 and second part in box LO1

1 = 41,22

Bogovinje - put the first part in box LA1 and second part in box LO1

1 = 41,20

Bosilovo - put the first part in box LA1 and second part in box LO1

1 = 41,22

Brvenica - get the first digit and search the equivalence

1 = 41,20	2 = 41,21

Debar - put the first part in box LA1 and second part in box LO1

1 = 41,20

Debarca - get the first digit and search the equivalence

1 = 41,20	2 = 41,21

Demir Hisar - get the first digit and search the equivalence

1 = 41,20	2 = 41,21

Demir Kapija - put the first part in box LA1 and second part in box LO1

1 = 41,22

Dolneni - put the first part in box LA1 and second part in box LO1

1 = 41,21

Drugovo - get the first digit and search the equivalence

1 = 41,20	2 = 41,21

Gevgelija - put the first part in box LA1 and second part in box LO1

1 = 41,22

Gostivar - get the first digit and search the equivalence

1 = 41,20	2 = 41,21

Gradsko - get the first digit and search the equivalence

1 = 41,21	2 = 41,22

Ilinden - get the first digit and search the equivalence

1 = 41,21	2 = 42,21

Jegunovce - get the first digit and search the equivalence

1 = 41,21	2 = 42,21

Karbinci - put the first part in box LA1 and second part in box LO1

1 = 41,22

Kavadarci - get the first digit and search the equivalence

1 = 41,21	2 = 41,22

Kratovo - get the first digit and search the equivalence

1 = 41,21	2 = 41,22	3 = 42,21	4 = 42,22

Kriva Palanka - put the first part in box LA1 and second part in box LO1

1 = 42,22

Kumanovo - get the first digit and search the equivalence

1 = 41,21	2 = 42,21

Lozovo - get the first digit and search the equivalence

1 = 41,21	2 = 41,22

Makedonska Kamenica - get the first digit and search the equivalence

1 = 41,22	2 = 42,22

Makedonski Brod - put the first part in box LA1 and second part in box LO1

1 = 41,21

Mogila - put the first part in box LA1 and second part in box LO1

1 = 41,21

Negotino - get the first digit and search the equivalence

1 = 41,21	2 = 41,22

Novaci - get the first digit and search the equivalence

1 = 40,21	2 = 41,21

Novo Selo - put the first part in box LA1 and second part in box LO1

1 = 41,22

Ohrid - get the first digit and search the equivalence

1 = 40,20	2 = 40,21	3 = 41,20	4 = 41,21

Opstina Lipkovo - put the first part in box LA1 and second part in box LO1

1 = 42,21

Opstina Rankovce - put the first part in box LA1 and second part in box LO1

1 = 42,22

Aracinovo - get the first digit and search the equivalence

1 = 41,21	2 = 42,21

Centar Zupa - put the first part in box LA1 and second part in box LO1

1 = 41,20

Delcevo - get the first digit and search the equivalence

1 = 41,22	2 = 42,22

Dojran - put the first part in box LA1 and second part in box LO1

1 = 41,22

Kicevo - get the first digit and search the equivalence

1 = 41,20	2 = 41,21		

Konce - put the first part in box LA1 and second part in box LO1

1 = 41,22			

Kocani - get the first digit and search the equivalence

1 = 41,22	2 = 42,22		

Krivogastani - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Krusevo - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Opstina Rostusa - put the first part in box LA1 and second part in box LO1

1 = 41,20			

Pehcevo - get the first digit and search the equivalence

1 = 41,22	2 = 41,23		

Probistip - get the first digit and search the equivalence

1 = 41,22	2 = 42,22		

Radovis - put the first part in box LA1 and second part in box LO1

1 = 41,22			

Sopiste - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Staro Nagoricane - get the first digit and search the equivalence

1 = 42,21	2 = 42,22		

Studenicani - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Vevcani - put the first part in box LA1 and second part in box LO1

1 = 41,20			

Vranestica - get the first digit and search the equivalence

1 = 41,20	2 = 41,21		

Vrapciste - put the first part in box LA1 and second part in box LO1

1 = 41,20			

Caska - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Cucer-Sandevo - put the first part in box LA1 and second part in box LO1

1 = 42,21			

Stip - get the first digit and search the equivalence

1 = 41,21	2 = 41,22		

Zelino - get the first digit and search the equivalence

1 = 41,21	2 = 42,21		

Oslomej - get the first digit and search the equivalence

1 = 41,20	2 = 41,21		

Petrovec - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Plasnica - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Prilep - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Resen - get the first digit and search the equivalence

1 = 40,20	2 = 40,21	3 = 41,20	4 = 41,21

Rosoman - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Struga - put the first part in box LA1 and second part in box LO1

1 = 41,20			

Strumica - put the first part in box LA1 and second part in box LO1

1 = 41,22			

Sveti Nikole - get the first digit and search the equivalence

1 = 41,21	2 = 41,22	3 = 42,21	4 = 42,22

Tearce - get the first digit and search the equivalence

1 = 42,20	2 = 42,21		

Tetovo - get the first digit and search the equivalence

1 = 41,20	2 = 41,21	3 = 42,20	4 = 42,21

Valandovo - put the first part in box LA1 and second part in box LO1

1 = 41,22			

Vasilevo - put the first part in box LA1 and second part in box LO1

1 = 41,22			

Veles - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Vinica - put the first part in box LA1 and second part in box LO1

1 = 41,22			

Zajas - put the first part in box LA1 and second part in box LO1

1 = 41,20			

Zelenikovo - put the first part in box LA1 and second part in box LO1

1 = 41,21			

Zrnovci - put the first part in box LA1 and second part in box LO1

1 = 41,22			

Cesinovo-Oblesevo - put the first part in box LA1 and second part in box LO1

1 = 41,22
